Subject: Permit Suspended for Failure to Pay Required Permit Fees, Jon Young, Torrey Buff Quarry, S/055/0012, Wayne County, Utah

Response Required by: July 6, 2011

Dear Mr. Young:

Authorization under the Utah Mined Land Reclamation Act to mine or conduct exploration operations requires the annual payment of permit fees. Division records indicate you have failed to remit your annual permit fees for the referenced mine for the years 2009 and 2010. **Authorization to operate under your Notice of Intention is suspended.**

You are hereby directed to cease all mining related activities, including the removal of previously mined materials, until the permit fees are paid in full. You are further directed to remit the past due amount of \$300 by July 6, 2010 (\$150 for each year) to remove the suspended status.

Failure to provide all permit fees by this date may result in the Division taking enforcement action, including the assessment of civil penalties, and/or withdrawing the Notice of Intention and requiring immediate reclamation of the site. Withdrawal of the Notice of Intention would terminate your right to mine and could result in forfeiture of the reclamation surety if the site is not reclaimed.

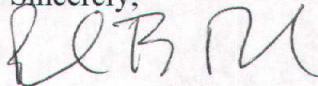

On April 20, 2011, the Division conducted an inspection of the site. During the inspection the Division found what appears to be a jug of antifreeze and a bucket of hydraulic fluid. Those items are considered deleterious materials and must be removed from the site. In addition, there was a significant amount of trash on the site that must also be removed. **Please remove the above mentioned items by no later than July 6, 2011.**
